PROJECTS

Z (X-Clone) — Twitter Clone Web Application

Description: Developed a full-featured social media application similar to Twitter, titled Z. The platform allows users to create profiles, post updates, follow other users, and engage in real-time interactions.

Technologies Used: MongoDB, Express.js, React.js, Node.js (MERN Stack)

Key Features: User Authentication, User Profiles, Post Creation and Interaction, Follow System, Real-time Updates, Responsive Design.

Challenges Overcome: API Development, JWT Authentication.

Link to Project: [<https://z-x-clone.onrender.com>]

Personal Portfolio Website — Portfolio Web Application

Description: Created a personal portfolio website to showcase my projects, skills, and experience. The website serves as a professional online presence and a platform to highlight my work as a MERN Stack Developer.

Technologies Used: MongoDB, Express.js, React.js, Node.js (MERN Stack)

Key Features: Responsive Design, Home Page, Projects Section, Skills Section, Contact Form.

Challenges Overcome: Design Consistency, Performance Optimization
